You are receiving this ***2026—Q2 Pennsylvania Quarterly P&C*** Marketplace Summary as a benefit of your membership in the **Insurance Agents & Brokers (IA&B)**. This report provides up-to-date property and casualty (P&C) data, offering you a "real-time" view of trends in the Pennsylvania insurance marketplace. Like the *2026 Pennsylvania Annual P&C Marketplace Summary*, this quarterly report focuses on the agent's perspective and uses direct premiums before reinsurance. It includes the most recent quarterly figures available from A.M. Best Company along with the past four years of P&C marketplace historical data. Three appendices accompany this report: two explain technical details, and the third provides a comprehensive list of all active insurers in Pennsylvania, along with key information on each.

To provide the reader an overview, Table 1 below highlights some major points from the full *2026—Q2 Pennsylvania Quarterly P&C Marketplace Summary*. Table 1 shows selected quarterly premium changes, the fastest growing insurer and the insurer's largest Line of Business, and quarterly loss ratios for all insurers combined. United States data is provided for comparison. The *2026—Q2 Pennsylvania Quarterly P&C Marketplace Summary* expands on Table 1 with premium change metrics for each Distribution Style, regulatory type, and Line of Business. Comparisons to all 50 states are added, and for premium changes over time. The full *2026—Q2 Pennsylvania Quarterly P&C Marketplace Summary* also provides the 50 Largest Insurers and 50 Fastest Growing Insurers in Pennsylvania.

2026-Q2 Pennsylvania Highlights	**Pennsylvania**	**United States (Average State)**
Selected Premium Changes (Q2-to-Q2)		
All Distribution	+1.4%	+1.2%
Independent Agent	+1.2%	+1.3%
Exclusive-Captive	–0.9%	–0.0%
Direct	+4.6%	+3.0%
Admitted	+0.7%	+1.1%
Surplus Lines	+9.7%	+2.0%
All Auto	+1.6%	–0.7%
Homeowners	+6.9%	+4.3%
Commercial Multi-Peril	+3.1%	–0.0%
The Fastest Growing Insurer and Line of Business		
Insurer Name and Group (if any)	Obsidian Insurance Company (Obsidian Insurance Group)	Omaha National Casualty Company (Omaha National Group)
Largest Line of Business	All Commercial Auto	Workers' Compensation
All Insurers Modified Quarterly Loss Ratios (Q2)		
2026-Q2 Loss Ratio	+56%	+54%
2025–Q2 Loss Ratio	+62%	+55%
4-Year Average Loss Ratio	+59%	+59%

Quarterly Premium Change: Pennsylvania vs. United States

To provide perspective, quarter-to-quarter premium change trends can be visually observed below in Figure 2, *Pennsylvania Premium - All Distribution,* and in Figure 3, *United States Premium - All Distribution*. Table 2 and Table 3, shown underneath Figure 2 and Figure 3, provide three measures of premium change rates for Pennsylvania and the United States. These are 2025 Q2 to 2026 Q2 (short-term), Rolling 12-Months (medium-term), and Average 4-Years (long-term). For further perspective on the size of the Pennsylvania P&C marketplace, total premiums for Pennsylvania and the United States are also provided in Tables 2 and 3 for the last complete calendar year.

The three measures of premium changes are useful in understanding a state's P&C insurance marketplace. Quarter-to-quarter (Q2-to-Q2) premium change rates tend to be the most volatile but are the most current. Rolling 12-Months change rates are a bit more stable but still current. Average 4-Years change rates are useful for assessing longer-term trends in the P&C marketplace.

Note: The approach taken in this section, of showing visual Figures with their related and associated Tables directly underneath, is the same general approach taken throughout the rest of this *2026—Q2 Pennsylvania Quarterly P&C Marketplace Summary.* For detailed information on how the Q2-to-Q2, Rolling 12-Months, and Average 4-Years premium change percentages are calculated, see *Appendix #1—Measuring Premium Change*.

Note: Throughout this report, whenever a Figure or Table has only the word "Rolling" or the word "Average," it refers to Rolling 12-Months or Average 4-Years and may omit the longer title due to space considerations.

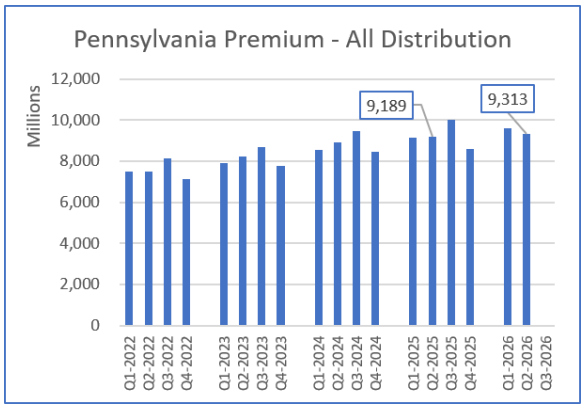

Figure 2

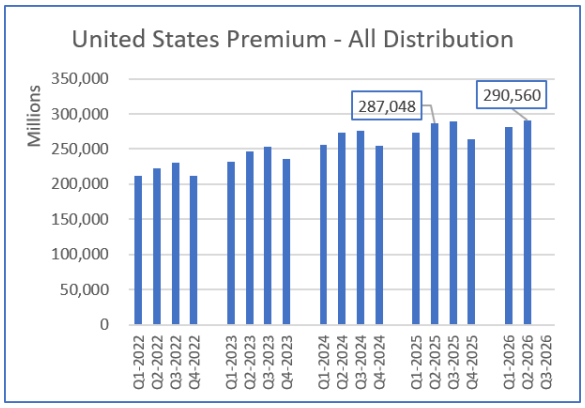

Figure 3

Q2-to-Q2	Rolling	Average
+1.4%	+3.6%	+5.5%
2025 Premium: $36,931,419,000		

Table 2

Q2-to-Q2	Rolling	Average
+1.2%	+3.0%	+6.8%
2025 Premium: $1,113,792,680,000

Quarterly Premium Change: Pennsylvania vs. Other States

Figures 4-6 below compare Pennsylvania to other states in alphabetical order, and to the U.S. Average (listed last) for Q2-to-Q2, Rolling 12-Months, and Average 4-Years. Each state's ranking is shown in parenthesis. For insurance agency readers of this *Summary* with locations in other states, those other state premium change rates can be seen as well. For eased comparison, premium change rates are summarized in Combined Table 4-6, *Selected Data from Above Figures*, and provides figures for Pennsylvania, the United States-Average, and the fastest and slowest growing states for the Q2-to-Q2, Rolling 12-Months, and Average 4-Years dates contained in Figures 4-6 below. Again, for detailed information on how the Q2-to-Q2, Rolling 12-Months, and Average 4-Years premium change percentages are calculated, see *Appendix #1—Measuring Premium Change*.

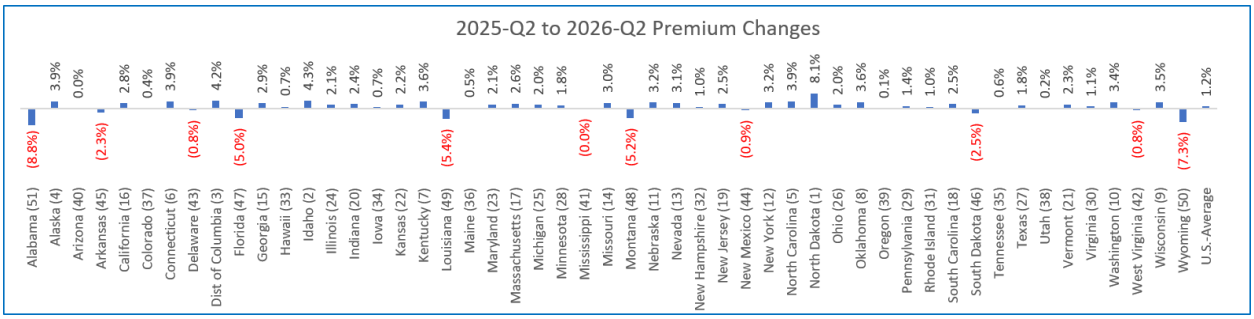

Figure 4

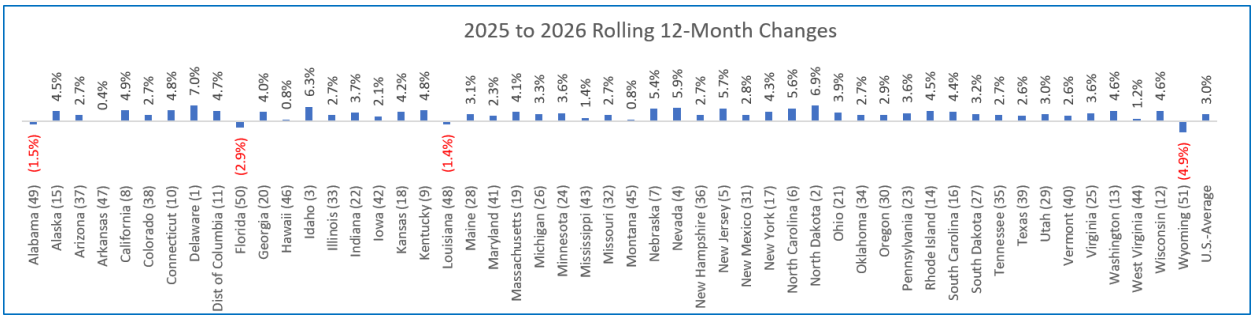

Figure 5

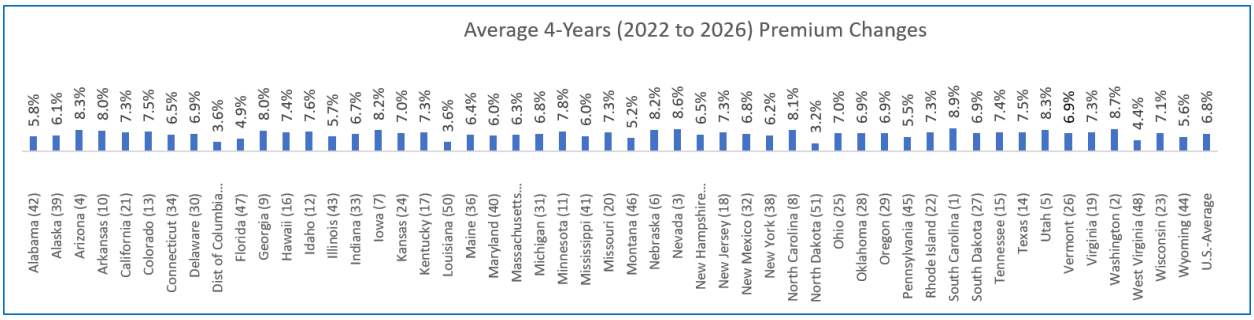

Figure 6

Selected Data from Above Figures			
	Q2-to-Q2	Rolling 12-Months	Average 4-Years
Pennsylvania	+1.4%	+3.6%	+5.5%
U.S.-Average	+1.2%	+3.0%	+6.8%
Fastest	North Dakota: +8.1%	Delaware: +7.0%	South Carolina: +8.9%
Slowest	Alabama: (8.8%)	Wyoming: (4.9%)	North Dakota: +3.2%

Quarterly Premium Change History: Pennsylvania vs. the United States

This section of the *2026—Q2 Pennsylvania Quarterly P&C Marketplace Summary* provides perspective on how premium changes played out in the marketplace in prior quarters, and in prior years. Figure 7, *Quarter-to-Quarter Premium Changes Over Time: Pennsylvania vs. United States,* and Figure 8, *Rolling 12-Month Premium Change Over Time: Pennsylvania vs. United States* show how Pennsylvania premiums have changed over time relative to the United States. This historical perspective is provided to show how the current quarterly premium changes are affecting Pennsylvania agents and consumers of insurance, versus the prior Quarter-to-Quarter and Rolling 12 Month premium changes that were experienced.

The data in Table 9, *Average 4-Years Premium Change: Pennsylvania vs. United States*, was presented previously on Page 3, Table 2 for Pennsylvania and Table 3 for the United States, and is provided again here for comparison to Figures 7 and 8. Once more, for detailed information on how the Q2-to-Q2, Rolling 12-Months, and Average 4-Years premium change percentages are calculated, see *Appendix #1—Measuring Premium Change*.

Pennsylvania Quarterly Premium Change: Distribution

The following Figures and Tables 10-12 illustrate Pennsylvania's premium changes for the three main ways that insurers distribute insurance. Those 3 ways are by **Independent Agent**, **Direct**, and **Exclusive-Captive** distribution. Figures and Tables 13-15 then provide further breakdown of the **Independent Agent** distribution style into **Pure IA or Broker** (pure independent agent or broker using insurers), **MGA** (managing general agent or wholesale using insurers), and **IA-Mixed** (insurers using independent agents and other distribution in combination). References to "Independent Agent," "Independent Agent distribution," or "insurers using Independent Agent distribution" in both quarterly and annual *Summaries* include those three component parts of the Independent Agent style of distribution. And Table 16, *United States Premium Change by Distribution—Percentage Comparisons,* shows U.S. comparisons to the 3 distribution styles, and the component parts of **Independent Agent** style of distribution. More information on the classification of insurers into Distribution Styles is contained in *Appendix #2—Annual vs. Quarterly P&C Marketplace Summaries*, in the subsection Distribution Styles.

Pennsylvania Quarterly Premium Change: Regulation

Figures 17-19 below show Pennsylvania premiums broken out into the predominant regulatory regime applying to the insurer, which are classified as **Admitted**, **Surplus Lines**, and **Risk Retention Groups (RRGs)**. The premiums shown are the sum of the individual insurers.

Admitted insurers are the most closely regulated for solvency, rates, and forms and are generally covered by a state guaranty fund. Surplus Lines insurers are less regulated and referred to with a variety of names such as Excess & Surplus Lines, Surplus Lines, or just Non-admitted. Risk Retention Groups are subject to a combination of federal and state rules and regulations.

Tables 17-19 present the percentage change rates for Pennsylvania for each regulatory regime, with total premiums applicable. Table 20, *United States Premium Change by Regulation—Percentage Comparisons* provides United States data from the same dates as contained in Figures 17-19, to enable comparison.

Note: For this combination of regulatory regime data in Figures 17-19, the vertical axis for each bar chart varies in the maximum dollars, as the intent is to show relative changes in premiums and quarterly differences. If a single maximum were used in all three Figures, then premium variations in each quarter would be less visible, or not visible at all for Surplus Lines and RRGs.

Note: As is the case with the *2026 Pennsylvania Annual P&C Marketplace Summary,* Surplus Lines premiums are those premiums through insurers domiciled in one of the 50 states and the District of Columbia (Domestic Insurers). Surplus Lines premiums for insurers not domiciled in the United States or DC (Alien Insurers) are not included, as they are not tracked in the same time horizon as Domestic Insurers.

Quarterly Premium Change: Distribution and Regulation Side-by-Side

Figures 21-23 below give a comparison of all premiums for Pennsylvania vs. the United States, in a side-by-side manner, for the stated Distribution Style and for just the Surplus Lines and RRGs regulatory regimes. Table 24 below, *Composite Premium Change Percentages for Figures 21-23*, provides the change percentages for Pennsylvania and United States with an added decimal place, as that level of precision is not conducive to display in Figures 21-23. You will notice that Table 24 goes further, and shows the change percentages for the Distribution Style subcategories of **Pure IA or Broker**, **MGA**, and **IA-Mixed**; and also the **Admitted** regulatory regime.

For an explanation of the Q2-to-Q2, Rolling 12-Months, and Average 4-Years timeframes (data dates) featured in Figures 21-23 below, and Table 24, refer to *Appendix #1—Measuring Premium Change*.

Pennsylvania Top 50 Largest and Fastest Growing Insurers

The following two pages contain 2026–Q2 quarterly data for the Pennsylvania 50 largest, and the Pennsylvania 50 fastest growing insurers. Table 25 is Pennsylvania *Top 50 Largest Insurers* and is sorted in descending order of each insurer's Rolling 12-Months premium dollars. Table 26 is Pennsylvania*: Top 50 Fastest Growing Insurers* and is sorted by the average premium change, that is Average 4-Years. If a Top 50 Largest Insurer seen in Table 25 is also a Top 50 Fastest Growing Insurer seen in Table 26, it is highlighted with yellow shading.

Tables 25 and 26 provide attributes and data on each Top Insurer. First is the policy-issuing insurer's Group or fleet, if any. Second is the policy-issuing insurer's Rolling DPW, meaning Direct Premium Written. Third is the Listed Marketing Type reported by the insurer. Fourth is the insurer's Largest Line of Business. Last are the three measures of change in premiums for each insurer: Q2-to-Q2, Rolling 12-Months, and Average 4-Years, which are shown in Table 25 and 26 as Q2-to-Q2 Change, Rolling Change, and Average Change. If any change percentage in Table 25 or Table 26 is blank it is because the percentage change is incalculable, as a $0 premium exists for one of the premiums in the premium change calculation.

The very bottom row of Table 25 and Table 26, "Total DPW and Weighted Average Change," contains the sum-total of all the premiums of all 50 insurers listed, as well as the weighted average of their premium change rates.

Note: The insurers shown in Tables 25 and 26 are individual policy-issuing insurers, and not broader groups or the brand you might associate with an insurer. Within insurer groups some policy-issuing insurers can grow faster or slower than the overall group, or than other insurers in the group.

Note: The largest Line of Business for each insurer shown in Tables 25 and 26 is based on the United States Line of Business premiums for the most recent calendar year (and NOT just Pennsylvania premiums). The United States Line of Business listed as largest may not be the largest Line of Business in Pennsylvania for that insurer, or the largest line in this most recent quarter. This is because the ranking of Lines of Business for an insurer in Pennsylvania can only be determined from annual data and this is a quarterly *Summary*.

(Note: There are no Figures 25 and 26)

How to Use this Information

Look for premium trends regarding competitors, or for the insurers you use. Examine what Lines of Business are most important to the insurer nationally. The fastest growing insurers might be recent competitors discussed in the trade press. Or they might be markets for you to investigate gaining access to, through a program administrator, MGA, or via a direct appointment.

In case an insurer is of interest to you, and it is not in the Top 50 largest or fastest growing insurers, insurer-specific details can be found in *Appendix #3-Pennsylvania All Active Insurers List*, which contains basic information on specific insurers, as well as any group the insurer belongs to. If you see an insurer of particular interest to you and you want significantly more detail than is found in *Appendix #3-Pennsylvania All Active Insurers List*, ask for a Pennsylvania *P&C Insurer SnapShot* for that insurer. Included in each *SnapShot,* but not found in an *All Active Insurer List* is data on the Top 10 Lines of Business, the insurer's biggest states, 10-year combined ratios, average commissions, and other in-depth insurer details.

Pennsylvania: Top 50 Largest Insurers (Table is sorted by Insurer Rolling 12-Month Direct Premium Written)

Quarterly Premium Change: Lines of Business

What follows is Line of Business premium change percentages for United States data. The Lines of Business are those reported quarterly by insurers. Then, to relate the United States Line of Business premium change data to Pennsylvania, an estimate for these Lines of Business is provided, as would have been experienced in Pennsylvania. Additional information on the Lines of Business reported quarterly by insurer is contained in *Appendix #2—Annual vs. Quarterly P&C Marketplace Summaries*.

United States Summary—Line of Business Premium Change Percentages

Figures 27-29 are a summary of United States premium changes by Line of Business for the three measures of premium change: Q2-to-Q2 (short-term), Rolling 12-Months (medium-term), and Average 4-Years (long-term). For explanation of the Q2-to-Q2, Rolling 12-Months, and Average 4-Years timeframes featured in Figures 27-29 below, refer to *Appendix #1—Measuring Premium Change*.

Note: The Lines of Business names in each figure below are listed in order from the Line of Business generating the most premiums (All Auto) to the Line of Business generating the least premiums (Burglary & Theft). Premiums from Non-Agent Lines are combined and listed last, out of rank-order. Non-agent lines include smaller lines that most Independent Agents do not focus on, such as credit, dental, medical supplement, and warranties.

United States Details—Individual Lines of Business

Figures 30-52 below, and their associated Tables 30-52, contain United States details on each Line of Business with premiums and percentage changes provided for the three measures of premium change: Q2-to-Q2 (short-term), Rolling 12-Month (medium-term), and Average 4-Years(long-term). Due to space considerations, these are shortened to Q2-to-Q2, Rolling, and Average. Annual premiums are also provided for the most recent complete calendar year for each Line of Business. As with the previous section, the Lines of Business are listed in order from the Line of Business generating the most premiums to the Line of Business generating the least premiums.

Pennsylvania—Line of Business Premium Change Estimates

Table 53 below, *Pennsylvania Line of Business Premium Change Estimates*, shows estimates for the premium changes that a typical Pennsylvania insured would have experienced from 2025 Q2 to 2026 Q2. These estimates are provided because Line of Business premium data is not available quarterly on a state-specific basis. The goal is to provide the most currently available, point-in-time data for Independent Agents to use when discussing premiums with their insureds, or when looking at an agency's book of business for near-term budgeting or strategic planning.

The calculation for these estimates is made using the formula at the head of the last column below. These premium change estimates are accomplished by using the Pennsylvania most recent, complete calendar year state-specific Line of Business percentage premium change, averaging it with the United States current quarter Line of Business percentage premium change, and then modifying that result by the ratio of Pennsylvania quarterly premium change to the United States quarterly percentage premium change for the current quarter ("Modification Factor").

Note: The same Lines of Business are presented in Table 53 below as in the previous section, but the Line of Business names are listed in alphabetical order, that is, not in rank-order from most premium to least premium as in the previous section.

Pennsylvania Line of Business Premium Change Estimates				
Columns (A), (B) and (C) =>	(A)	(B)	(C)	Average [(A) & (B)] X (C)
Line of Business	Pennsylvania Line of Business Change for Last Full Year (2025)	United States Line of Business Change for 2026-Q2	2026-Q2 Modification Factor (*)	Estimates: Pennsylvania Line of Business Change for 2026-Q2
Aircraft	–2.3%	+2.2%	+110.4%	–0.0%
All Auto (**)	+3.6%	–0.7%	+110.4%	+1.6%

Workers' Compensation	–6.6%	–0.8%	+110.4%	–3.4%

Table 53 (Note: There is no Figure 53)

Notes: (*) This is the quotient of Q2-to-Q2 premium change for Pennsylvania to United States. If the ratio is over 150%, Column C is capped at 150%. (**) The Pennsylvania All Auto's premium change rate is an average of All Commercial Auto premiums (approximate weight 20%) and the All Private Passenger Auto premiums (approximate weight 80%). (***) The E.C. Perils+Flood+Crop uses the same approach of a weighted average of premium change for Allied lines, Federal Flood, Multi-Peril Crop, Private Flood and Private Crop using 2024 full year premiums.

Quarterly Loss Picture: Pennsylvania vs. United States

The state-specific quarterly loss data available from P&C insurers is not as robust as the data available annually. Missing from quarterly data is state-specific Line of Business loss data, as insurers only report loss data on a state-wide basis, and don't report quarterly on each specific Line of Business, as they do annually. The same applies to insurer reporting of earned premiums. Earned premiums are not reported by insurers for each specific Line of Business in each state. A Modified Quarterly Loss Ratio can still be calculated however, and that formula used is shown below. Do take notice this is not a traditional loss ratio, as written premiums are used and not earned premiums.

$$Modified\ Quarterly\ Loss\ Ratio = \frac{Quarterly\ Paid\ Losses + Current\ Loss\ Reserves - Prior\ Loss\ Reserves}{Quarterly\ Written\ \ Premiums}$$

Modified Quarterly Loss ratios may not compare exactly to those determined with earned premiums, and they can be more volatile. That said, the timely nature of Modified Quarterly Loss Ratio data can be of interest, because large-scale loss events can have an impact on individual quarters. As state-specific losses tend to be seasonal, it is best to compare the current quarter's Modified Loss Ratio to the same quarter in prior years.

Figure 54 and Figure 55 below show the Modified Quarterly Loss Ratio for all premiums in Pennsylvania, and the United States, allowing for comparison, either on average, or for patterns in all quarters. They show the measure of loss experience for all insurers quarter-to-quarter and then compared to the average loss experience for all quarters. The Modified Quarterly Loss ratio for the same quarter the previous year is pointed out as the specific red percentage shown. In general, when the blue line is above the red line that is a relatively favorable quarterly loss result. And when the red line is above the blue line that is relatively unfavorable loss result.

Modified Quarterly Loss Ratios All insurers: Pennsylvania vs. United States

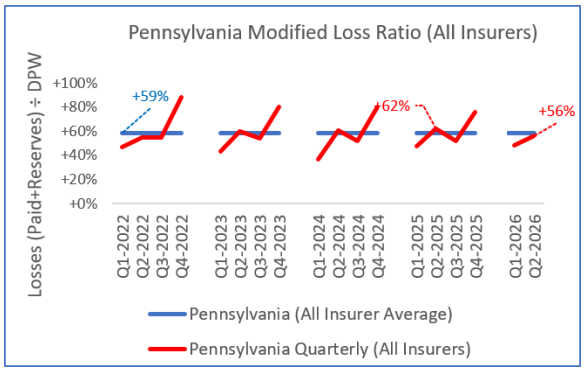

Figure 54

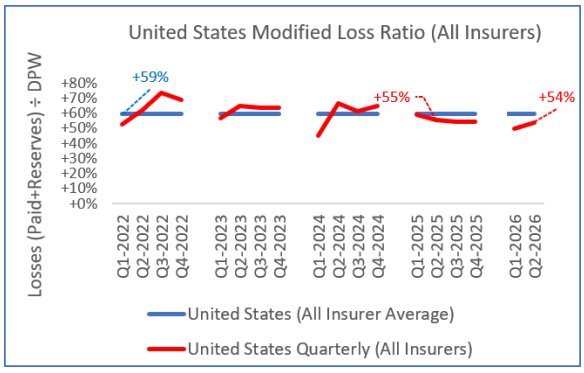

Figure 55

(Note: There are no Tables 54-55)

Source: © A.M. Best Company — used by permission.

While you can't calculate state-specific Line of Business Modified Quarterly Loss Ratios, you can calculate these loss ratios by Distribution Style and by regulatory regime. In this way, insurer's quarterly trends can be monitored for both groups of insurers, and on a state-specific basis. For groups of insurers, the Distribution Style shown in the next section are **Independent Agents**, **Exclusive-Captive**, and **Direct**. And after that, shown are the regulatory regimes of **Admitted**, **Surplus Lines,** and **Risk Retention Group (RRGs)**.

Quarterly Loss Ratios by Distribution: Pennsylvania vs. United States

Figures 56-61 below show Pennsylvania Modified Quarterly Loss Ratios for all insurers grouped as using **Independent Agents**, **Exclusive-Captive**, and **Direct** distribution. As a reminder, insurers combined as "Independent Agents" include insurers distributing insurance through **Pure IA or Broker**, **MGA** and **IA-Mixed**.

Appendix #1—Measuring Premium Change

This *2026—Q2 Pennsylvania Quarterly P&C Marketplace Summary,* as with the *2026 Pennsylvania Annual P&C Marketplace Summary*, uses P&C industry data on the direct insurance business, before reinsurance. So, premiums used throughout this quarterly *Summary* are direct premiums, not net premiums or gross premiums. Also, as the quarterly *Summary* is focused on insurance marketplace trends, written premiums are used, not earned premiums.

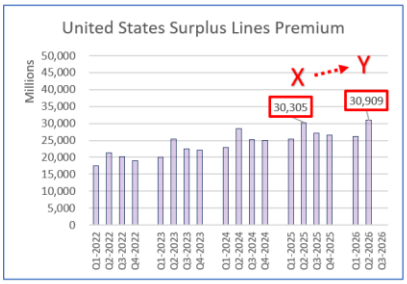

Premium change rates are tracked and measured in 3 ways in the *2026—Q2 Pennsylvania Quarterly P&C Marketplace Summary*. The three measures of premium change are: Q2-to-Q2 (short-term), Rolling 12-Months (medium-term), and Average 4-Years (long-term). Three measures are provided because either a short-, medium-, or long-term percentage measure may be the most useful in understanding a state's P&C insurance marketplace.

- **Q2-to-Q2 (short-term)**: premium change rates tend to be the most volatile but are the most current.
- **Rolling 12-Months (medium-term)**: change rates are a bit more stable but still current.
- **Average 4-Years (long-term)**: change rates are still current but the least volatile, and useful for assessing longer-term trends.

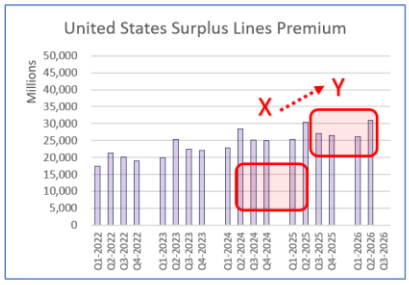

Explanation of the Quarters/Years Covered in this Summary

The bar charts in Figures 68-70 below visually show the three measures of premium change rates for United States Surplus Lines Premiums, followed by the mathematical formula for computing those premium change rates. Note the quarters/years in each premium change formula. Figure 68 shows the quarters/years that the Q2-to-Q2 calculation includes. Figure 69 shows the quarters/years that the Rolling 12-Months calculation includes. And Figure 70 shows the quarters/years that the Average 4-Years calculation includes, for all data in this *2026—Q2 Pennsylvania Quarterly P&C Marketplace Summary*.

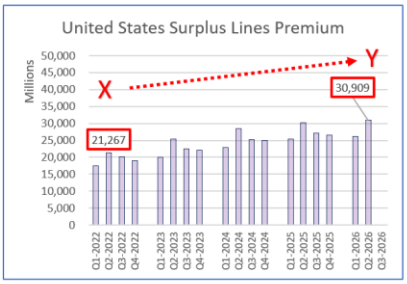

Q2-to-Q2

Rolling 12-Months

Average 4-Years

"Q-to-Q" Percentage Change Formula

$$= \frac{(Y - X)}{X}$$

$$= \frac{(30{,}909 - 30{,}305)}{30{,}305} = +2.0\%$$

Figure 68

"Rolling" Percentage Change Formula

$$= \frac{(Y - X)}{X}$$

$$= \frac{(109{,}731M - 103{,}845M)}{103{,}845M} = 5.7\%$$

Figure 69

"Average" Percentage Change Formula

$$= Slope\ of\ Line\ (Annualized)$$

$$= \left[EXP\left(\frac{LN\left(\frac{30{,}909M}{21{,}267M}\right)}{16}\right) - 1\right] X\ 4 = 6.5\%$$

Figure 70

(Note: There are no Tables 68-70)

Appendix #2—Annual vs. Quarterly P&C Marketplace Summaries

There are several important differences in the *2026 Pennsylvania Annual P&C Marketplace Summary* vs. this *2026—Q2 Pennsylvania Quarterly P&C Marketplace Summary***.** These are differences in how Lines of Business are reported, differences in some premium totals, and differences in the number of years covered. There is also one important similarity between the annual *Summary* and quarterly *Summary*, which is how insurers are categorized into Distribution Styles.

Lines of Business Differences

The Lines of Business reported by insurers in annual statutory statements are more numerous and detailed than the Lines of Business reported by insurers in quarterly reports. For example, in the Pennsylvania annual *Summary* automobile data is segregated into both Commercial, and Private Passenger Auto because the data is available individually for those Lines of Business. In this quarterly *Summary* Commercial Auto and Private Passenger Auto are combined, as the data is not available for those two Lines of Business individually in all years.

Below is a side-by-side comparison of the treatment of Lines of Business in the annual vs. quarterly *Summaries*. In this comparison, the annual *Summary* Lines of Business are alphabetical in the left-hand column. The corresponding quarterly Lines of Business are in the right-hand column, and are not alphabetical.

Annual P&C Marketplace Summary Lines of Business	Quarterly P&C Marketplace Summary Treatment
Accident & Health	In "Non-Agent Lines"
Aggregate Write-ins	In "Non-Agent Lines"
Aircraft (all perils)	Aircraft (all perils)
All Commercial Auto	All Auto
All Private Passenger Auto	All Auto

Total Premium Differences

A detail-oriented reader may notice a difference in premium totals between what is reported in the annual vs. quarterly *Summaries*. The annual *Summary* data available provides totals for the continental United States (that is, 50 states and the District of Columbia). The quarterly *Summary* data available includes totals for the continental United States, but also includes U.S. territories, Canada, and alien jurisdictions, which add +1.3% to the continental United States total premiums. This makes the sum of all 4 quarters of premiums, for any calendar year, higher than the total premium shown in an annual *Summary* for that same calendar year.

For clarity, below are the total premiums for All Lines of Business using the most recent, complete calendar year data for the continental United States vs. the data for the same calendar year for all quarters for the United States plus its territories. The prior year's (2025) annual data is used because it allows for the best comparison.

Premiums for All Lines of Business	2025 Annual Summary Total	2025 Quarterly Summaries (4 Quarters Combined)	Difference (*)
United States	$1,099,181,751,000	$1,113,792,680,000	+1.3%

Note: (*) Difference in premiums is Alien jurisdictions, Canada, Puerto Rico, Guam, U.S. Virgin Islands, and Norther Mariana Islands. Source: © A.M. Best Company — used by permission.

Time Period Differences (4 vs. 5 years)

In the *2026 Pennsylvania Annual P&C Marketplace Summary* the most recent 5 years of data are used. The 2026—Q2 Pennsylvania Quarterly P&C Marketplace Summary uses the most recent 4 years of data, plus any additional quarters in the current year.

Distribution Style Classification Similarity

The same approach to classifications of insurers by Distribution Style used in the *2026 Pennsylvania Annual P&C Marketplace Summary* is also used in this *2026—Q2 Pennsylvania Quarterly P&C Marketplace Summary*. There is no difference in classification between the two.

There are 6 classifications of insurers into Distribution Styles, as listed below:

1. **Pure IA or Broker** (pure independent agent or broker using insurers)
2. **MGA** (managing general agent or wholesale insurers)
3. **IA-Mixed** (insurers using independent agents and other distribution within one insurer)
4. **Direct** (insurers using direct mail, internet or similar distribution)
5. **Exclusive-Captive** (insurers using exclusive, captive, or career agents)
6. **Other** (other types of distribution, no information, and inactive insurers)

When insurers using Independent Agent distribution is looked at generally, in both the annual and quarterly *Summaries*, references to "Independent Agent," "Independent Agent distribution," or "insurers using Independent Agent distribution" include the component parts of **Pure IA or Broker**, **MGA** and **IA-Mixed**.

The annual *Summary* contains more information on this classification of insurers, based on reported marketing types. Interested readers should refer to the *2026 Pennsylvania Annual P&C Marketplace Summary* and its *Appendix #1: Distribution Style Classifications*.

Appendix #3—Pennsylvania All Active Insurers List

This *Appendix #3* allows you to quickly see basic information on any insurers that might be encountered in daily Independent Agent insurance agency operations. *Appendix #3: Pennsylvania All Active Insurers List,* presents a list of policy-issuing insurers with any direct written premium greater than $0 for the current quarter. Insurers are listed in alphabetical order.

Included for each insurer on the *List* is:

- **Insurer Group:** the insurer's group (if any)
- **Rolling 12-Months DPW**: the insurer's Pennsylvania Rolling 12-Months direct written premium in $000
- **Listed Marketing Type**: the insurers' listed marketing type per A.M. Best
- **Largest Line of Business:** the insurer's largest Line of Business based on the most recent complete year's total of all premiums (all states). If "Non-Agent Line" is shown, the Line of Business is one not tracked separately in this *Summary* such as Mortgage or Financial Guaranty.
- **Q2-to-Q2**: the insurers Pennsylvania Q2-to-Q2 (short-term) premium change rate
- **Rolling 12-Month:** the insurers Pennsylvania Rolling 12-Month (medium-term) premium change rate
- **Average 4-Years:** the insurers Pennsylvania Average 4-Years (long-term) premium change rate

The attributes presented in this *Pennsylvania All Active Insurers List*, and shown above, are not the same as those insurer attributes presented in the *2026 Pennsylvania Annual P&C Marketplace Summary,* and found in that *Summary's Appendix #4: Pennsylvania All Active Insurers List*. This quarterly *Summary's* Appendix emphasizes measures of premium change for each insurer. The annual *Summary's Appendix* emphasizes Pennsylvania's relationship to nationwide data and loss experience.

Note: Due to space considerations the three measures of premium changes are shortened in the *All Active Insurers List* to Q2-to-Q2 Change, Rolling Change, and Average Change in the List's heading.

Policy-Issuing Insurer	Insurer Group (if any)	Rolling DPW (in $000)	Listed Marketing Type	Largest Line of Business (All Premium)	Q-to-Q Change	Rolling Change	Average Change

P&C Marketplace Summary provided by Real Insurance Solutions Consulting

This *2026—Q2 Pennsylvania Quarterly P&C Marketplace Summary* has provided the reader with both visual and numeric presentations of quarterly P&C marketplace data. This data is provided to you as a benefit of your membership in the **Insurance Agents & Brokers (IA&B).**

Other informative insurance industry data products are offered by Real Insurance Solutions Consulting (R.I.S.C.), which also may be available to you as members:

- State-specific ***Annual P&C Marketplace Summaries*** are made available as the A. M. Best data reported by P&C insurers becomes available.
- State-specific ***Line of Business All Insurer Lists*** provide data on all insurers active in a particular state for a Line of Business, or for various other attributes of active insurers.
- State-specific ***P&C Insurer Snapshots*** are available, based on the same data provided in the annual and quarterly summaries, with more in-depth data like market share by Line of Business, and other information. Data is provided both on a national and state-specific basis.
- State-specific ***P&C Line of Business Profitability Summary*** is a new report looking at the profitability of the 25 Lines of Business in a state, over the past 10 years.
- Annual state-specific ***Storm Event Summaries*** are made available, based on data reported by the National Oceanic and Atmospheric Administration (NOAA) via its agency the National Center for Environmental Information (NCEI).

All questions, comments, need for further analysis, or orders for additional insurance industry data products are welcomed at the contact information below:
